Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

C&T. 1 Paperback(s), 2010. soft. Book Condition: New. An artist who uses quilting as her principal medium, Judi Warren Blaydon here borrows from the technique of photo-collage to inspire highly personal contemporary quilts. She shows how you can use your own photos to create a collage and provides tips on how to select fabrics that work with your composition. Her technique encourages quilters to look for texture, shape, and color when shooting photos, and she explains how to expand your quilt design possibilities by looking for unusual vantage points, intricate details, varied patterns, and complex elements in your photography."Instead of dictating specific projects, Blaydon leads readers through the general steps for turning paper collages into unique quilts; individuals are encouraged to create work that speaks to them personally, and to let the art evolve from there. If you are looking for a new way to quilt, or to combine your love of collage with the world of quilting, this is a great guide."Quilting Arts Magazine 95.
