Manual of Epidemiology for District Health Management

By J P Vaughan, R H Morrow

World Health Organization, Switzerland, 1989. Paperback. Book Condition: New. 292 x 208 mm. Language: English . Brand New Book ***** Print on Demand *****.A step-by-step guide to the use of epidemiology as a tool for improving the management of health services. Addressed to general health workers, the book uses clear definitions, analogies, examples, checklists, sample forms and calculations, and abundant illustrations to demystify the methods of epidemiology and show how they can work in concrete situations. Particular emphasis is placed on the simple knowledge and skills needed to collect and then use epidemiological data to monitor health problems commonly found in developing countries. The book shows how a four-phase epidemiological approach, involving descriptive, analytical, intervention, and evaluation epidemiology, can supply virtually all the information needed to pinpoint health problems, design targeted interventions, and define reliable indicators for monitoring progress. Other chapters offer guidance in the collection of demographic data, the conduct of routine health surveillance, the use of epidemiology to control an epidemic, and the design of special surveys to collect additional information. The second half of the book concentrates on the analysis, presentation, and use of results. Topics covered include the use of record forms and coding, methods of...
