## ***Reviews***

*This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).*

Excerpt: .names only, is a diphthong, --le Puy, Dupuy, c. 200. When this group of vowels is followed by another vowel in the body of a word, it always forms two diphthongs in connection with that vowel (see pp. 44, 45), except, of course, when y is followed by a silent e. 201. tun is a diphthong only in--202. General Observations.--Initial consonants are Always Sounded in French; and, when several consonants begin a word, they are all pronounced. Even in words beginning with sce, sci, or scy, the s, which is said to be alone sounded, is certainly much strengthened by its association with the c. When two or more words are intimately connected in sense, no solution of continuity in the flow of the voice should occur, and the words must be uttered one after another in one continuous stream, as if they formed but one long word divided into as many syllables as there are vowelsounds in the whole; therefore, when the first word ends with a consonant and the next begins with a vowel, the final consonant of the first word, which otherwise would be silent, is carried to the second word, with which it is fully sounded, becoming, de facto, the initial letter of that word. We have another and more striking illustration of this resumption of sound by consonant letters, in the case of suffixes, or letters added, for whatever object, to some words. For instance, in doigt, grand, vingt, petit,...
