General Guidelines for Facility Development and Maintenance. The instructional aids, laboratory and shop equipment, and physical layout of the building must meet the requirements outlined in sections 147. 15, 147. 17, and 147. 19. The applicant should keep in mind that the facility must constitute an environment suitable for learning. Distractions from learning, such as excessive noise, dust, fumes, heat, cold, and clutter must be considered during development of the AMTS facility. (1) Facilities must be of adequate size for the number of FAA-authorized students to accomplish any of the laboratory or shop projects designated for that area and all classroom instruction. (2) Facilities must be located and classes scheduled so that students can travel between classes without cutting into instructional time. An AMTS should avoid scheduling situations in which the students cannot go from one class to another within the time the school specifies for class transit. (3) The school should ensure the laboratory and shop floors are free from clutter, such as extension cords and air hoses. b. Facility Layout. All facilities must conform to local and state codes. Discussion of those requirements is beyond the scope of this AC. The layout of the AMTS facilities will be influenced by the ratings the school plans to obtain. The following sections provide basic information on facility layout according to the requirements of each subject...
